To: Webberking Fred (UO/MOE1)
Subject: TO WHOM IT MAY CONCERN

I have worked with Fred Webberking at Robert Bosch Corporation in Anderson, SC for approximately one year. Fred services and maintains a complex, highly technical assembly line used for the manufacture of automotive oxygen sensors.

Although my contact with Fred has been brief, I am confident in saying that he is diligent, open, honest, very observant, conscientious and dependable. He appears to understand quickly all relating technical matters and reacts expeditiously to solve and correct problems.

I feel that he is likely working under his capacity and could better serve with more challenging projects. If put in a friendly environment, Fred would excel and continue to prove his worth.

Sincerely,

C. Thomas Fromknecht, Professional Engineer,
